OREGON SCHOOL-BASED HEALTH ALLIANCE WELLNESS PARTNERSHIP

A Critical Source of Funding for OSBHA to Do More

For every state dollar invested, SBHCs leveraged an estimated additional **\$3.97** from grants, billing donations and other sources
(2017 OR SBHC Status Report)

SBHCs improve educational and health-related outcomes in disadvantaged youth
(2016 Community Action Guide Systematic Review)

56% of students reported missing less than one class while accessing care at their SBHC
(2017 OR SBHC Status Report)

The economic benefit of SBHCs exceeds their operating cost and SBHCs result in net Medicaid savings
(2016 Economic Evaluation of SBHCs)

With state budget shortfalls and national health care changes, OSBHA's advocacy for SBHCs is more important than ever. With the financial support from our Wellness Partners, OSBHA is able to:

Convene and Connect Key Stakeholders

- Work with partners to create comprehensive payment models to fully support school health services
- Collaborate with partners to develop a comprehensive school health network of services using resources efficiently
- Elevate the importance, relevance and understanding of school health services through community promotion

Act as a Statewide Voice for Youth Health

- Advocate for adequate SBHC and school health funding
- Facilitate OSBHA's Statewide Youth Action Council to engage students in leadership opportunities, legislative processes, influence student health services training and school health advocacy
- Provide statewide grant funding and training for regional Youth Action Council projects through the ACTION Grant Program that gives young people a voice

Align Resources and Maximize Efficiencies Benefiting Oregon SBHCs

- Provide technical assistance, needs assessments, resources and professional development for SBHCs
- Help SBHCs participate in cross-sector efforts to provide comprehensive care
- Strengthen school-based health services and systems, keeping ALL students healthy so they can learn and realize their full potential
